Conveyor Belts

Our intentions to serve the construction industry have reached this new landmark – rubber conveyor belts. Ranging from Branded to Unbranded, Open ended to Closed Ended, Plain to Chevron, we supply all types of conveyor belts that are widely used in Concrete Ready-Mix Plants, Sand Washing Plants, and As-

RED RUBBER

New to our line of products is the Linotech range of products for the Construction Industry. These premium wear resistant rubber rolls are manufactured from 95% Pure Natural Rubber obtained from fresh field latex using a proprietary liquid phase compounding procedure. Common applications are Slurry handling, Chutes and tank linings, hydro-cyclones and sumps.

NEW SALES MANAGER

Following Middle East Electricity 2009, we are proud to announce our intent to capture a greater market share in the electricity segment. Heading the effort is Mr. Vijay Kumar, who joined ARYANI in the beginning of 2009. He comes to us with a

30 year career experience in the field in Bahrain.

PALL Oil Purifier at work

Al Ezzel Power Company has taken delivery of a new oil purifier (PALL) which was tested and commissioned and last month. A trial run of the system showed it to be a true asset for our cus-

tomers. HPC (Hidd Power Company) are users of the same system and are looking to upgrade it.
